## 2. GETTING IN TOUCH WITH TECHNICAL SUPPORT

---

Looking for help? Check our FAQ on our website

<https://payzen.io/de-DE/faq/sitemap.html>

For technical inquiries or support, you can reach us from Monday to Friday, between 9am and 6pm

by phone at:

**0811708709**

Service fee 0.06 € / min  
+ call charge

by e-mail:

[support@payzen.eu](mailto:support@payzen.eu)

via your Merchant Back Office:

menu **Help** > **Contact support**

To facilitate the processing of your demands, you will be asked to communicate your shop ID (an 8-digit number) .

This information is available in the "registration of your shop" e-mail or in the Merchant Back Office (**Settings** > **Shop** > **Configuration**).

### 3. CHOOSING A TEST CARD

The payment gateway provides you with credit card numbers for making payment in test mode.

Different payment cases can be **simulated** using the test card numbers indicated in the tables below.

The merchant can test these payment cases in:

- payment by form,
- payment by web services,
- or MOTO payment.
- **CB, VISA** card types

Card number	Test card checked
4970100000000014	Payment accepted with 3-D Secure authentication
4970100000000022	Payment with interactive 3-D Secure authentication
4970100000000030	Payment accepted, merchant not enrolled into 3-D Secure
4970100000000105	Payment accepted, buyer enrolled into 3-D Secure, status = ATTEMPT
4970100000000048	Payment accepted, buyer not enrolled into 3-D Secure
4970100000000006	Payment accepted, key control Luhn done
4970100000000055	Payment accepted, payment guarantee = NO
4970100000000063	Payment rejected due to failed 3-D Secure authentication, the buyer did not manage to authenticate him/herself
4970100000000071	Payment refused, authorization refused due to exceeded limit
4970100000000089	Payment refused, authorization refused due to a security code error

- **VISA TRADITIONAL, PREPAID MAESTRO** card type

Type	Card number	Test card checked
VISA TRADITIONAL	4970200000000012	Payment accepted

378283000000003	Payment by AMEX SafeKey, card not enrolled, payment accepted
378283000000004	Payment by AMEX SafeKey, enrollment verification unavailable, payment accepted

Card number	Test card checked
378283000000005	Payment by AMEX SafeKey, card enrolled, authentication FAILED, payment refused
378283000000006	Payment by AMEX SafeKey, card enrolled, authentication UNAVAILABLE, payment refused

- **JCB** card type

Card number	Test card checked
352800000000000001	Payment accepted
352800000000000002	Payment declined
252800000000000001	Payment declined

- **DISCOVER** card type

Card number	Test card checked
6011000000000008	Payment by Discover accepted
6011000000000057	Payment by Discover declined

- **DINERS** card type

Card number	Test card checked
36000000000008	Payment by Diners accepted
36000000000057	Payment by Diners declined, do not honor

The choice of the expiration date and cryptogram remains free (Ex: expiration date = 0420 and CVV =123 ).

**Notes**

*The test transactions can be viewed by all duly authorized users of the Merchant Back Office in **Management > TEST transactions** menu.*

*The results of the tests below are conditioned by enrollment status of your MID. As long as you don't receive the email notifying you of the activation of your guarantee (3D Secure, Safekey or JSecure), the test payments will be made without warranty.*

## 4. CARRY OUT A TEST PAYMENT

The user can carry out a payment by **form**, a **MOTO payment** or a payment via **Web Services**.

### Carry out a test payment by form

#### 1. Display the payment method selection page.

##### Notes :

To display the payment method selection page, the user can:

- configure his payment page in test mode,
- or create a payment order by e-mail in the Merchant Back Office.

#### 2. Click on the payment method to be tested

The bank details capture page appears.

< Cancel and return to shop Select your language : EN

Amount : 55.00 EUR

The address of this payment gateway prefixed with https indicates that you are on a secure site and you can safely pay for your purchase.

Figure 1: Entering payment method details

A list of available card numbers is displayed below.

USE TEST MODE

Click on one of the test numbers listed **below** to automatically populate the fields in the form.  
Each test number corresponds to a result of an expected payment.

- 4970\_1000\_0000\_0014 - Payment accepted with 3-D Secure authentication
- 4970\_1000\_0000\_0005 - Payment accepted with 3D Secure authentication, the card number has been validated using the Luhn algorithm
- 4970\_1000\_0000\_0022 - Payment with interactive 3-D Secure authentication
- 4970\_1000\_0000\_0030 - Payment accepted, merchant not enrolled into 3-D Secure
- 4970\_1000\_0000\_0048 - Payment accepted, buyer not enrolled into 3-D Secure
- 4970\_1000\_0000\_0055 - Payment accepted, payment guarantee = NO
- 4970\_1000\_0000\_0053 - Payment declined due to failed 3-D Secure authentication, the buyer did not manage to authenticate him/herself
- 4970\_1000\_0000\_0071 - Payment declined, authorization refused due to exceeded limit
- 4970\_1000\_0000\_0089 - Payment declined, authorization refused due to a security code error

**TEST mode** allows to perform test payment. These payments can be viewed in the Back Office via the menu Management > TEST transactions.  
TEST mode is available at all times, even after a production certificate has been generated

#### 3. Click on the appropriate card number

The fields of the bank details are automatically filled in.

#### 4. To finalize the payment, click on **Validate**.

The payment result page appears.

If the payment has been successfully completed, a page with the transaction summary will appear with possibility to download receipt in PDF format.

In case the transaction fails, a message appears. The buyer is informed of the rejection of the payment request.

### **Carry out a MOTO payment in test mode**

1. Choose the MOTO payment in the Merchant Back Office.
2. Activate the payment method of the buyer.
3. Enter the transaction amount.
4. Select the transaction currency.
5. Click on Test payment method.

The **Choice of Test payment method** page appears.

The screenshot shows a 'Payment' form with the following fields:

- Amount \*:
- Currency \*:
- Card number \*:
- Exp. date \*:
- Security code:

Below the form is a dialog box titled 'Choice of the TEST payment method' containing the following messages:

- 4970.1000000000014 : Payment accepted with 3D Secure authentication
- 4970.1000000000055 : Payment granted, payment warranty = NO
- 4970.1000000000030 : Payment accepted, merchant is not 3D Secure enrolled
- 4970.1000000000048 : Payment accepted, the buyer is not 3D Secure enrolled
- 4970.1000000000063 : Payment declined because the 3D Secure authentication was not successful. The buyer could not proceed with authentication.
- 4970.1000000000071 : Payment declined, the authorization was unsuccessful as the card has reached its limit.
- 4970.1000000000089 : Payment declined, authorization declined due to an error in the entered security code.

6. Click on the appropriate card number

The fields of the bank details are automatically filled in.

7. Click the **Create** button to validate the transaction.

If successful, the detail of the transaction is displayed. In case the transaction fails, the input fields remain filled in order to facilitate any new attempts.
